

Service Contracts

Customized programs for preventative maintenance agreements.

Proactive maintenance for reduced downtime

On-site or classroom training available

Discounts on spare parts

Various levels of service based on your needs

Refresher courses for operators

Tailored to fit your production needs

Matthews is taking service to a higher level with service contracts made to fit your unique business needs. As part of these comprehensive programs, you will receive specially discounted rates for service visits, on-site training for new employees as well as refresher training for existing employees, and much more.

Most importantly, your participation in a proactive maintenance program will reduce production downtime, long term.

Contact your Matthews Service Technician for more information, or call us direct at **412-665-2500** to receive more details about these programs. Or, visit us online to view complete program detail at <http://www.matthewsmarking.com/support/index.php>.
